2. Introduction

2.1 About Project

The objective of Mukhya Mantri Seekho Kamao Yojna is to provide apprenticeship to all unemployed and economically weak youth (Age group 18 to 29). By providing apprenticeship the youth can subsequently get a job in the same establishment/organization or some other organization. Hereby, the youth will become financially strong and will be able to take care of their family.

2.2 Purpose of the document

The purpose of this SRS document is to elaborate functional requirements for the development of Mukhya Mantri Seekho Kamao Yojna Portal, that has been developed by CoE, MPSeDC. The intended users of this document are

- Client Representatives for Stakeholders
- Development Team
- Validation & Verification Team

2.3 Purpose of the Application

- After registering for Mukhya Mantri Seekho Kamao Yojna, youth can get a job by taking training in their desired field.
- According to their choice, youth can get training, during which they will be given stipend of minimum Rs 8,000 per month.
- During the training of young men and women, either the job will be given there itself or the government will make efforts for this also.

2.4 Envisaged Modules

Master Data & Registration

- Master Data Management
- Establishment Registration
- Candidates Registration

Marketplace:

Marketplace, a platform needs to be designed to connect establishments and candidates for On-the-job Training. This marketplace serves as a central hub where establishments can post their internship vacancies, and candidates can browse and apply for these positions.

The goal of marketplace is to streamline the on-the-job training application process, making it easier for both establishments and candidates to find the perfect match. Marketplace application will be helpful for both, whether an establishment looking to offer valuable work experience to aspiring professionals or a candidate seeking hands-on learning opportunities.

Following will be the major activities that will be performed by establishment and a candidate:

Marketplace: (Establishment Login)

- Create Vacancies
- Update Vacancy Details against created vacancy
- Candidate Applications
- Candidate Search
- Job Invitation
- Contract Management (Creation and Signing)
- Attendance Monitoring
- Assessment and Certification

- Payment Process and Disbursement
- Reports

Marketplace: (Candidate Login)

- Search Vacancies
- Job Applications
- Contracts
- View Invitation
- Certification

2.5 Stakeholders / Actors of Application

- Establishment User
- Candidate
- Departmental User (Admin)
- District User

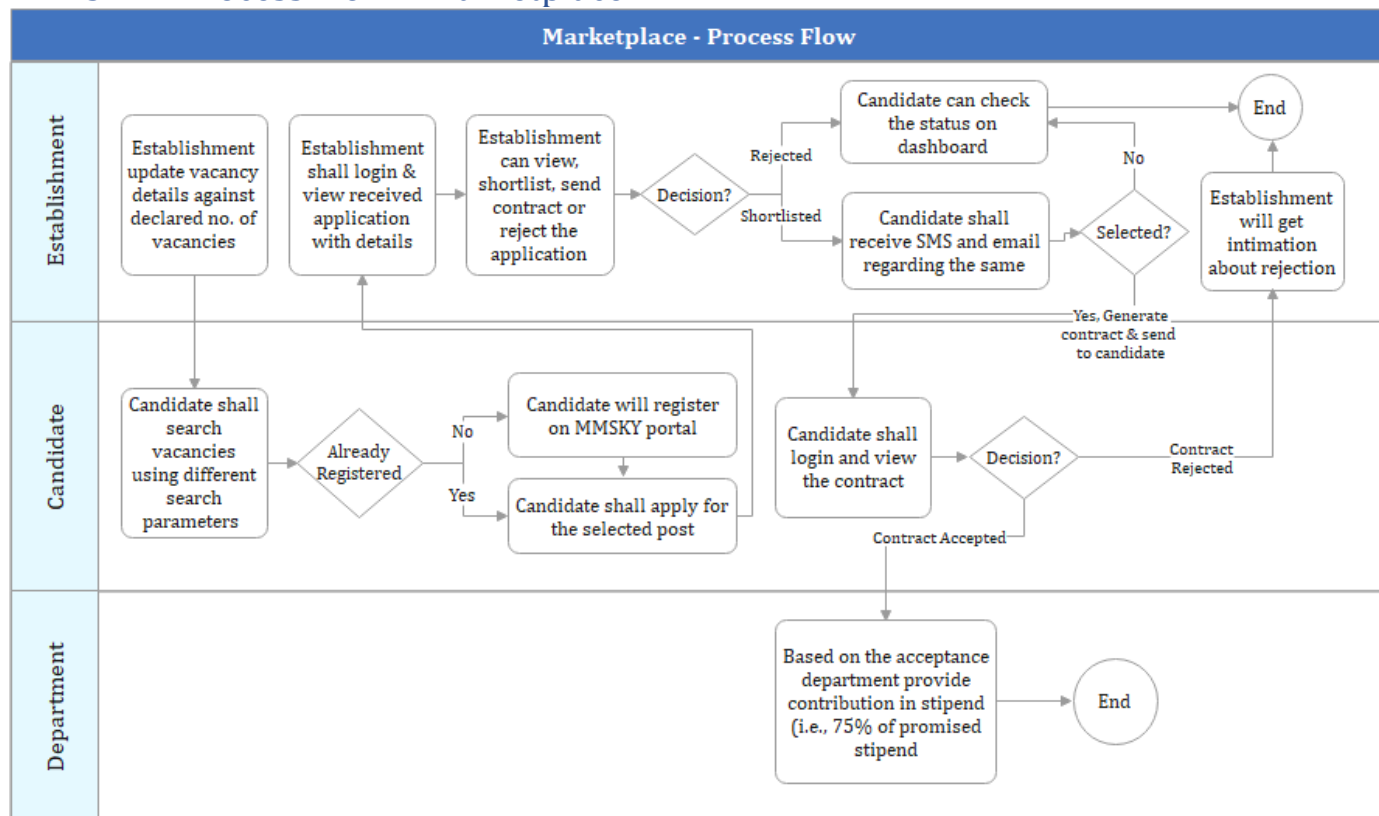

2.6 Roles and Responsibilities Matrix

S.No.	Stakeholder	Role/Responsibility
1	Establishment	• Create OJT Location • Create Vacancies • Update Vacancy Details against created vacancy • Candidate Applications • Candidate Search • Job Invitation • Contract Management (Creation and Signing) • Attendance Monitoring • Assessment and Certification • Payment Process and Disbursement • Reports
2	Candidate	• Search Vacancies • Job Applications • Contracts • View Invitation • Certification
3	Department (Admin)	• Contract Approval • View Report

2.7 Assumptions & Dependencies

- It is assumed that departmental users are well versed in using web applications.
- It is assumed that internet connectivity is available.
- It is assumed that departmental users are well versed in using web applications.
- Users will input required, valid and authentic data into the system.

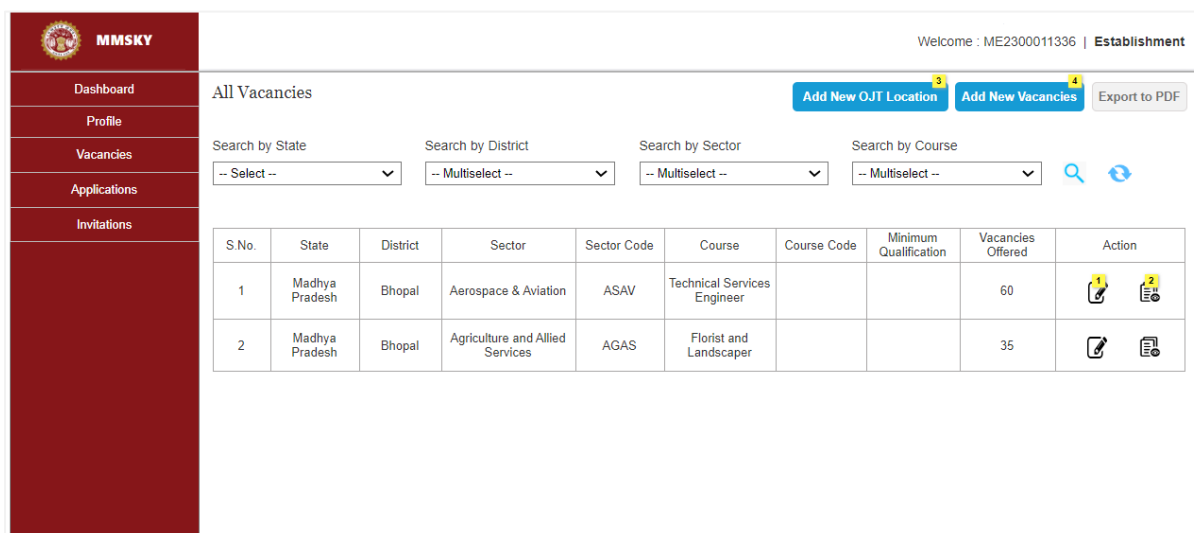

3. Process Flow – Marketplace

4. Modules wise Use Cases

4.1 Bifurcate Vacancies – Establishment Login

4.1.1 Bifurcate Vacancies – Wireframe

4.1.2 Bifurcate Vacancies – Use Case

Introduction	The Establishment user can do bifurcation of Courses for the needed training through this system
Primary Actor	Establishment user
Responsibilities	Establishment user has to perform bifurcation so it can be visible on the frontend of Application.
Pre-Conditions	• The Establishment user must be registered on the Application. • The Establishment user has access to vacancy management system.

Normal Flow	Functional Requirement ID (FRID)	Functional Requirement Description						
	1.	The Establishment user must log in to the system with their valid credentials.						
	2.	After login, Establishment user shall land on dashboard and has to click on “Vacancy” tab.						
	3.	On vacancy page, Establishment user would view all the vacancies they created at the time of profile creation. To bifurcate the vacancies with stipend, Courses Establishment user shall click on three dots which will be given under action column.						
	4.	As Establishment user click on three dots, “Edit” and “View” dropdown will appear. To bifurcate the vacancies, Establishment user shall click on “Edit” button.						
	5.	As click on “Edit” button, screen will display OJT location and course details will display with vacancies details.						
	6.	After getting on boarded to the ADD VACANCY page Establishment user will see the following information: - - In the first Section he will get the OJT location details which will be automatically fetched (i.e. State, District, City / Town, Pin code, Address). These columns will be non-editable. - In the second section he will get the course details column under where Establishment user has to fill the following information: -<table><tr><td>Sector Name</td><td>Dropdown (List of all the sector that a student can pursue)</td></tr><tr><td>Course Name</td><td>Dropdown (Based on the Selected sector the user should get list of all course available in that sector)</td></tr></table> The following will be automatically fetched which are :- - Total Strength (Establishment user’s + Contractor’s) i.e. (Total number of employees on all basis) - Max Vacancies that could be published (which will be 15% of total strength) - Formula: - 15 *0.01 *(Total Strength) - Total Published Vacancies (Across all OJT locations) - Remaining Vacancies - Formula: - Max Vacancies – Total Published Vacancies <table><tr><td>Show</td><td>Button</td></tr></table>	Sector Name	Dropdown (List of all the sector that a student can pursue)	Course Name	Dropdown (Based on the Selected sector the user should get list of all course available in that sector)	Show	Button
	Sector Name	Dropdown (List of all the sector that a student can pursue)						
Course Name	Dropdown (Based on the Selected sector the user should get list of all course available in that sector)							
Show	Button							
7.	After clicking on the show button.							

		According to the Sector and Courses selected by Establishment user they will get list of all the available courses (i.e., if Sector they selected is (Aerospace & Aviation) and course name is Technical Services Engineer) than they will see the following information:
		Select
		Checkbox
		Serial No.
		1
		Sector Name
		Aerospace & Aviation
		Course Name
		Technical Service Engineer
		Course Code
		ASAV0006
		OJT Duration Months
		12 Months
		Minimum Qualification
		Graduate Engineering
		Relevant Field and domain
		Mechanical Engineering
		Add / Update Vacancies
		0
		Monthly Stipend Offered by Establishment per vacancy (Rs.)
		2500 (As per the master list)
		Monthly Stipend Offered by Government per vacancy (Rs.)
		7500 (non-editable) (As per the master list)
		Total Monthly Stipend Offered per vacancy (Rs.)
		10000
		About Job (Description)
		(As per the master)
	8.	The row will be non-editable but Once the Establishment user selects particular checkbox based on the course, he wants to provide he would be able to edit the following cells that are: Sector Name, Course Name, OJT Duration Months, Minimum Qualification, Relevant Field and domain, Add Vacancy, Monthly Stipend Offered by Establishment per vacancy (Rs.), About Job (Description)
	9.	After filling every mandatory information, the Establishment user can SAVE (i.e. the information they filled), RESET (i.e. clear the information they filled), or go BACK (i.e. go back to the OJT Location Page)
	10.	To save the bifurcation, user needs to click on "Save" button.
Post-Conditions	As Establishment user click on "Save" button, updated vacancies will get display on Marketplace and candidate will be able to view and apply on those vacancies.	

4.1.3 Bifurcate Vacancies – Business Logic

- In the vacancy table "Course Code" and "Minimum Qualification" will display blank, if vacancies for any OJT location have been updated by establishment at the time of profile creation.
- To add the job details for the very first time, establishment will use "edit" button.
- OJT Location Details and Course Details and Total Vacancies will always display in non-editable format.
- To bifurcate the declared vacancies, show same courses with different course codes, minimum qualification or relevant field / domain in a table (fetch from database), so that establishment can perform bifurcation of consolidated vacancies.
- Bifurcated vacancies will always be equal to the total declared vacancies.
- Stipend offered by est. could be greater than or equals to 25% of total stipend offered, as per qualification. Show 25% of total stipend offered in editable format. Establishment shall be able to

increase that amount but should not be able to decrease the auto calculated amount.

- Stipend offered by Govt. will be equal to 75% of total stipend offered, as per qualification and it should show in non-editable format.
- Total stipend offered will be = Stipend offered by establishment + Stipend offered by Government. If establishment has increased its part from 25% then the total stipend will increase.
- If later-on establishment wants to increase or decrease the vacancies then user shall click on edit button, and can edit the bifurcated vacancies, one-by-one. On edit, consolidated vacancies will automatically be updated.
- Establishments will only be able to add vacancies up to 15% of total employee strength including contractual employees.
- Establishments shall not be able to decrease or delete the vacancies of any course if contract has been sent against those vacancies.
- When establishment bifurcate the vacancies for the very first time or add new vacancies against new OJT location or created OJT location then establishment stipend contribution will be display in editable mode against each course. And if the establishment edit the vacancies for second time, then the establishment stipend contribution will display in non-editable format.
- Courses with 0 vacancies should not be published at the marketplace.

4.3.2 Add New OJT Location – Use Case

Introduction	The Establishment user can add new location for training through this system	
Primary Actor	Establishment user	
Responsibilities	The Establishment user must add every location wherever he has the vacancy.	
Pre-Conditions	- The Establishment user must be registered on the Website. - The Establishment user must have vacancies for the new location. - The Establishment user should write the exact location of his place. - The Establishment user must add every location wherever he/she wants to add vacancies.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	17.	The Establishment user has to log into the system with his valid credentials.
	18.	The Establishment user has to browse the Vacancy column in his dashboard where he has to click on “Add new OJT location”.
	19.	After entering the Page, the Establishment user will see the form where he has to fill the following information: -

		State	Dropdown (All of the states in India must be mentioned)
		District	Dropdown (Depending upon the selected state all the district inside that state should be fetched)
		City / Town	Text Box
		Pin Code	Text Box
		Address	Text Field
		Add	Button
	20.	After Adding the information Establishment user must get updated with the table where he gets all the details every time, he creates new OJT.	
	21.	The table must have (Serial No., State, Pin code, Address)	
	22.	The Establishment user can delete the OJT PLACE and the Establishment user can also add the Number of Vacancies for the following address	
	Post-Conditions	• The Establishment user will see all the location he has updated. • The Newly added Location and Vacancy will get published on marketplace from where the candidates can view and apply for the published vacancy. • Establishment user should see the received application against the posted vacancies.	

4.3.3 Add New OJT Location – Business Logic

- Establishments can add multiple OJT locations and all added OJT locations will display in the list as shown above.
- Establishments can add vacancies against all added OJT locations.
- Establishments shall only be able to delete the OJT location, if any vacancy is not added for that OJT location.
- As establishment clicks on the “Add Vacancy” button, below page will display on which OJT location will display in disabled format. Establishment shall select Sector and Course to add vacancy.

4.4.2 Add New Vacancies – Use Case	
Introduction	The Establishment user can add new Vacancy for his needed training through this system

Primary Actor	Establishment user						
Responsibilities	The Establishment user must add every location wherever he has the vacancy.						
Pre-Conditions	- The Establishment user must be registered on the portal. - The Establishment user has access to the create vacancy management system.						
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description					
	23.	The Establishment user must log in to the system with his valid credentials.					
	24.	The Establishment user needs to browse to the Vacancy tab in the dashboard page.					
	25.	To Add vacancy the Establishment user must have created OJT location where he will add the vacancy by clicking upon the “ADD VACANCY” button.					
	26.	After getting on boarded to the “ADD VACANCY” page Establishment user will see the following information: - In the first Section he will get the OJT location details which will be automatically fetched (i.e., State, District, City / Town, Pin code, Address). These columns will be non-editable. - In the second section he will get the course details column under which Establishment user has to fill the following information: - <table><tr><td>Sector Name</td><td>Dropdown (List of all the sector that a student can pursue)</td></tr><tr><td>Course Name</td><td>Dropdown (Based on the Selected sector the user should get list of all course available in that sector)</td></tr></table> The following will be automatically fetched which are: - Total Strength (Establishment’s + Contractor’s) i.e. (Total number of employees on all basis) - Max Vacancies that could be published (which will be 15% of total strength) – Formula: 15 *0.01 *(Total Strength) - Total Published Vacancies (Across all OJT locations) - Remaining Vacancies		Sector Name	Dropdown (List of all the sector that a student can pursue)	Course Name	Dropdown (Based on the Selected sector the user should get list of all course available in that sector)
	Sector Name	Dropdown (List of all the sector that a student can pursue)					
Course Name	Dropdown (Based on the Selected sector the user should get list of all course available in that sector)						

		– Formula: Max Vacancies – Total Published Vacancies Show Button																										
27.	After clicking on the show button. According to the Sector and Course selected by user they will get list of all the available courses (i.e., if Sector they selected is (Aerospace & Aviation) and course name is Technical Engineer) than they will see the following information: <table><tr><td>Select</td><td>Checkbox</td></tr><tr><td>Serial No.</td><td>1</td></tr><tr><td>Sector Name</td><td>Aerospace & Aviation</td></tr><tr><td>Course Name</td><td>Technical Service Engineer</td></tr><tr><td>Course Code</td><td>ASAV0006</td></tr><tr><td>OJT Duration Months</td><td>12 Months</td></tr><tr><td>Minimum Qualification</td><td>Graduate Engineering</td></tr><tr><td>Relevant Field and domain</td><td>Mechanical Engineering</td></tr><tr><td>Add / Update Vacancies</td><td>0</td></tr><tr><td>Monthly Stipend Offered by Establishment per vacancy (Rs.)</td><td>2500 (Master)</td></tr><tr><td>Monthly Stipend Offered by Government per vacancy (Rs.)</td><td>7500 (non-editable) (Master)</td></tr><tr><td>Total Monthly Stipend Offered per vacancy (Rs.)</td><td>10000 (Master)</td></tr><tr><td>About Job (Description)</td><td>Master</td></tr></table>	Select	Checkbox	Serial No.	1	Sector Name	Aerospace & Aviation	Course Name	Technical Service Engineer	Course Code	ASAV0006	OJT Duration Months	12 Months	Minimum Qualification	Graduate Engineering	Relevant Field and domain	Mechanical Engineering	Add / Update Vacancies	0	Monthly Stipend Offered by Establishment per vacancy (Rs.)	2500 (Master)	Monthly Stipend Offered by Government per vacancy (Rs.)	7500 (non-editable) (Master)	Total Monthly Stipend Offered per vacancy (Rs.)	10000 (Master)	About Job (Description)	Master	
Select	Checkbox																											
Serial No.	1																											
Sector Name	Aerospace & Aviation																											
Course Name	Technical Service Engineer																											
Course Code	ASAV0006																											
OJT Duration Months	12 Months																											
Minimum Qualification	Graduate Engineering																											
Relevant Field and domain	Mechanical Engineering																											
Add / Update Vacancies	0																											
Monthly Stipend Offered by Establishment per vacancy (Rs.)	2500 (Master)																											
Monthly Stipend Offered by Government per vacancy (Rs.)	7500 (non-editable) (Master)																											
Total Monthly Stipend Offered per vacancy (Rs.)	10000 (Master)																											
About Job (Description)	Master																											
28.	The row will be non-editable but Once the Establishment user selects particular checkbox based on the course, he wants to provide they would be able to edit the following cells that are: Sector Name, Course Name, OJT Duration Months, Minimum Qualification, Relevant Field and domain, Add Vacancy, Monthly Stipend Offered by Establishment per vacancy (Rs.), About Job (Description)																											
29.	After filling every mandatory information, the Establishment user can SAVE (i.e., the information they filled), RESET (i.e., clear the information they filled), or go BACK (i.e., go back to the OJT Location Page)																											
30.	After updating the information by clicking on save button a confirmation message will popup where the Establishment user can either cancel the vacancy creation or can click on the OK button to create vacancy.																											

	<table border="1"> <tr> <td data-bbox="435 194 628 226">31.</td><td data-bbox="628 194 1372 226">The Establishment user will click OK button to create vacancy.</td></tr> </table>	31.	The Establishment user will click OK button to create vacancy.
31.	The Establishment user will click OK button to create vacancy.		
Post-Conditions	• The Establishment user will see all the location he has updated. • The Newly added Location and Vacancy will get published on marketplace from where the candidates can view and apply for the published vacancy. • Establishment user should see the received application against the posted vacancies.		

4.4.3 Add New Vacancies – Business Logic

- As establishment select course, bifurcation of selected course will display in grid to bifurcate the vacancies.
- Update vacancy text field will display disabled by default. Update vacancy text field will only be enabled, if establishment has selected that course.
- Total of all updated vacancies will be displayed above in the “vacancies offered” text field.
- Stipend offered by est. could be greater than or equals to 25% of total stipend offered, as per qualification. Show 25% of total stipend offered in editable format. Establishment shall be able to increase that amount but should not be able to decrease the auto calculated amount.

4.5 Preferred Vacancy Search – Candidate Login

4.5.1 Preferred Vacancy Search – Wireframe

4.5.2 Preferred Vacancy Search – Use Case

Introduction	The candidate will search vacancy.		
Primary actor	Candidate		
Pre-conditions	• Candidate should have valid credentials to login into the system • Candidate should have option for preferred vacancies search and advance search. • Search filters should not be mandatory.		
Process-flow	Functional requirement Id	Functional description	
	32.	Candidate shall login with valid login credentials	
	33.	As the candidate gets logged in system "User dashboard" will appear having tabs: • Profile • Resume download • Find vacancy(Riktiya khoje) • View application status(Aavedan kee sthiti dekhe)	
	34.	Candidate will click on" Find vacancy" tab.	
		As candidate click on" Find vacancy" tab "Candidate preferred vacancy search" page will open having fields:	
		Search by establishment name	Text box
		State	Drop down (only preferred states)
		District	Drop down (only preferred district)
	Sector	Drop down (only preferred sectors)	
	Course	Drop down (only preferred courses)	

	35.	After filling the above fields, the candidate can click on either of the two button "Submit" or "Reset".
	36.	As user click on "Submit" button vacancies will appear as preference. *Candidate should have filled vacancy preference *Establishment should have vacancy.
	37.	*Candidate have not given preference The following instruction page will appear: - No record available - You have not selected courses as per interest - You can select the preferred courses in profile section - To view more vacancy, click on "Advance search" button.
	38.	As candidate click on "Advance search" button all available vacancy will appear.
Post-condition	Candidate should be able to view available vacancy.	

4.5.3 Preferred Vacancy Search – Business Logic

- On Candidate Preferred Vacancy page candidates shall only be able to view the vacancies related to their updated preference while profile creation.
- All search filter dropdown values will display according to the candidate preference only, i.e., state dropdown will only consist of the state name (Madhya Pradesh or Outside Madhya Pradesh) that candidate has selected while updating their preference. Similarly, district, sector, course dropdown will only consist of the values that candidate had selected during preference Updation.
- Qualification dropdown will only consist of values as of candidate qualifications.
- Courses with zero vacancies should not be displayed on the marketplace to apply.
- If candidate try to apply on the vacancies for which he/she is not qualified (not having minimum qualification for that course), a message will be displayed in pop-up "प्रिय अभ्यर्थी, आप इस रिक्ति के लिए आवेदन नहीं कर पाएंगे क्योंकि आपके पास चयनित रिक्ति के लिए न्यूनतम योग्यता नहीं है।"
- "रिक्तियों की संख्या" should be displayed updated all the time. If establishment has increased the vacancies, then increased no. should display or if some candidate has accepted a contract against the vacancies, then no. should get decreased accordingly.
- To apply on any vacancy, a candidate should register and log-in on the portal. If a candidate is not logged in using his/her credentials then on clicking on "Apply" button, he/she should redirect to the login page.
- If user is already logged-in then clicking on "आवेदन करें" button, shows a pop-up of successfully submitted application (no need to show "view" page).
- On "candidate preferred vacancy" page all sub courses of preferred course should be displayed, irrespective of minimum qualification of that course and relevant domain.

4.6 Advance Vacancy Search – Candidate Login

4.6.1 Advance Vacancy Search – Wireframe

4.6.2 Advance Vacancy Search – Use Case

Introduction	The candidate will search all the vacancies posted on marketplace.	
Primary actor	Candidate	
Pre-conditions	Vacancies should be posted by the establishments.	
Process-flow		
	Functional requirement Id	Functional description
	39.	Candidate shall login with valid login credentials
	40.	As the candidate gets logged in system" User dashboard" will appear having tabs: - Profile - Resume download - Riktiya khoje (रिक्तियां खोजें) - View application status (आवेदन की स्थिति देखें)
	41.	Candidate will click on "Find vacancy" tab.

		As candidate click on "रिक्तियां खोजें" tab and on that page user will found a button for "Advance Search". As user click on "Advance Search Button, a page will display" with following filters.										
		<table><tr><td>Search by establishment name</td><td>Text box</td></tr><tr><td>State</td><td>Drop down</td></tr><tr><td>District</td><td>Drop down</td></tr><tr><td>Sector</td><td>Drop down</td></tr><tr><td>Course</td><td>Drop down</td></tr></table>	Search by establishment name	Text box	State	Drop down	District	Drop down	Sector	Drop down	Course	Drop down
	Search by establishment name	Text box										
	State	Drop down										
District	Drop down											
Sector	Drop down											
Course	Drop down											
42.	After filling the above fields, the candidate can click on either of the two button "Submit" or" Reset".											
43.	As user click on" Submit" button vacancies will appear as per the selected filter criteria.											
Post-condition	Candidate should be able to view available vacancy.											

4.6.3 Advance Vacancy Search – Business Logic

- On Advance search page, candidate will be able to search all vacancies posted by all establishments, however candidate can only apply on the vacancies as per his/her qualification.

Welcome : ME2300011336 | Establishment

Amended Contract

Model Contract of On-the-Job Training for Student Trainees

1. (a) Name and Registered Address of Establishment:

Wingston Spring Private Limited (ME2300011336)
Govindpura Industrail Area, Bhopal, Madhya Pradesh

(b) Phone No./Landline No. and Official Email Address:

9876543212
wingstonspring@gmail.com

2. (a) Name of Student-trainee (Block Letters):

RAHUL JAIN (196555180)

(b) Father's / Mother's / Spouse Name:

Govind Jain

3. Address of Student-trainee :

C2/F1 Sagar Eden, Ayodhya Bypass, Bhopal, Madhya Pradesh

4. Gender:

Male

5. Date of Birth:

28/05/2002

6. (a) Whether candidate belongs to SC/ST/OBC/PwD/Minority/EWS:

Yes

(b) Name of the Category:

OBC

7. Educational Qualification (Highest):

Graduate (Engineering)

8. Name of the course for which the Student-trainee is training:

Civil and Rural Engineering

9. Duration of On-the-Job Training (in months):

12 Months

10. Period of On-the-Job Training:

01/09/2023 to 31/08/2024

11. (a) Name of the facility where On-the-Job Training is to be provided:

Wingston Spring Private Limited

(b) Address of the facility where On-the-Job Training is to be provided:

Govindpura Industrial Area, Bhopal

12. (a) Date of execution of contract:

22/08/2023

(b) Age of Student-trainee on the date of execution of contract:

23 Years, 5 Months & 23 Days

13. (a) Monthly Establishment Stipend Contribution (in Rs.):

2500 /-

(b) Monthly GoMP stipend contribution (in Rs.):

7500 /-

(c) Monthly stipend amount (Establishment + GoMP) (in Rs.):

10000 /-

The Establishment agrees and understands that the minimum contribution by the establishment to monthly stipend payable to Student-trainees is prescribed in the Government of Madhya Pradesh, Department of Technical Education, Skill Development & Employment Order No. 1232, Dated 19th May 2023, of Mukhya Mantri Seekho Kamao Yojana (MMSKY). Copy of Order is annexed with this agreement. The Establishment confirms that the agreed contribution by the establishment to the monthly stipend payable to Student-trainee entered above and paid every month should not be less than these minimum rates.

14.. We, the Establishment and the Student-trainee solemnly declare that we have read the Government of Madhya Pradesh, Department of Technical Education, Skill Development & Employment Order No. 1232, Dated 19th May 2023, of Mukhya Mantri Seekho Kamao Yojana (MMSKY) regarding the contract of On- the-Job Training for Student-trainees and will comply with the same.

15. I, the Student-trainee, declare that all details shared by me, including educational qualifications and other personal information, are correct and will provide original documents for verification at any time.

16. I, the Student-trainee, declare that, if I am found to have obtained the stipend through any fraudulent means, I will refund the entire amount to the Government of Madhya Pradesh. I understand that in such a situation, I shall be liable for legal action against me.

17. The Student-trainee has never worked as an employee of the establishment or any of its subsidiaries. In case this condition is violated, the establishment agrees to refund to the Government of Madhya Pradesh the contribution it made under the Scheme. The establishment shall also be liable for legal action arising out of such violation.

18. We, the Establishment, have examined the information provided by Student-trainee, including personal details, and will seek relevant documents for verification within 7 days of the start of the training. In case the documents are found suspicious, the training shall be stopped and Government of Madhya Pradesh informed.

19. The stipend for a particular month shall be paid by the 7th day of the following month.

20. If a student-trainee attends training for 25 days in a month, they will be eligible for the full stipend. However, if their attendance is less than 12 days, they will not qualify for the stipend for that month. For attendance exceeding 12 days but less than 25 days, they will be given a stipend proportionate to their attendance.

21. Upon successful completion of the training and prescribed assessment, the State Council for Vocational Training (SCVT) certification will be provided by the Madhya Pradesh State Skill Development and Employment Generation Board (MPSSDEGB).

22. The Establishment and the Student-trainee hereby also declare to comply with the terms and conditions of Mukhya Mantri Seekho Kamao Yojana (MMSKY) as they exist on this day of contract.

4.10.2 Take action on Received Applications – Use Case

4.10.3 Take action on Received Applications – Business Logics

- Establishments shall not be able to send contracts to those candidates who have already accepted a contract.
- Establishments shall only be able to send contracts equal to the no. of vacancies that they have posted for a particular OJT location, sector and course.
- Maintain a contract counter throughout the application. Whenever any contract is generated at establishment level (with eSign) (through shortlisting or invitation) against any vacancy then the contract counter will increase by 1 but vacancy will remain the same. As candidate accept that contract, then vacancy will decrease by one. But if candidate reject that contract, then the vacancy counter will increase by one.

For example, If an establishment posted 15 vacancies for a course and generated/eSigned 15 contracts and sent to different candidates, then that establishment cannot send more contracts for

the same vacancy. On sending 15 contracts, the contract counter will increase by 15. Let's assume, if 14 out of 15 candidates have accepted the contracts and 1 candidate rejected the contract, the contract counter will decrease by 1 and establishment will be able to send 1 more contract to other candidate for same vacancy.

- Available Vacancy Formula - (Total Posted Vacancies - Contract Accepted by candidate + Contract Rejected by Directorate + Candidate Not Joined/Terminated by Establishment (a flag to be maintain, that could be required later))

Available vacancy formula to be checked at every page where available vacancies are being displayed.

- **Contract Counter Formula** - Contract Counter <= Available Vacancies
(Need to maintain a contract counter. While sending any contract (via shortlisting process and Invitation sent), this needs to be check)

1. (a) Name of Establishment and Address:

Wingston Spring Private Limited (ME2300011336)
Govindpura Industrial Area, Bhopal, Madhya Pradesh

(b) Mobile No. and Email ID of Establishment:

9876543212
wingstonspring@gmail.com

2. (a) Name of Candidate and Address

RAHUL JAIN (196555180)
C2/F1 Sagar Eden, Ayodhya Bypass, Bhopal, Madhya Pradesh

(b) Father's / Mother's / Spouse Name

Govind Jain

(c) Gender

Male

(d) Date of Birth

28/05/2002

3. (a) Whether candidate belongs to SC/ST/OBC/PwD/Minority/EWS:

Yes

(b) Name of the Category:

OBC

4. (a) Educational Qualification (Highest):

Graduate

(b) Name of the Course for which Candidate is going to be trained

Civil and Rural Engineering

5. (a) Duration of Course:

12 Months

(b) Training Duration:

01/09/2023 to 31/08/2024

(c) Training Location:

Govindpura Industrial Area, Bhopal, Madhya Pradesh

6. (a) Date of Execution of Contract

22/08/2023

(b) Age of Candidate on the date of execution of contract (years, months & days):

23 Years, 5 Months & 23 Days

7. (a) Establishment Stipend Contribution (Monthly in Rs.)

25000/-

(b) Government of Madhya Pradesh Stipend Contribution (Monthly in Rs.)

7500/-

(c) Total Offered Stipend (Establishment + GoMP) (Monthly in Rs.)

100000/-

नियम एवं शर्तें

1. कॉन्ट्रैक्ट को ई-साइन करने के लिए कृपया "Accept" बटन पर क्लिक करें।

2. यदि आपने एक कॉन्ट्रैक्ट को स्वीकार कर लिया है और उस पर ई-साइन कर दिया है तो आप किसी अन्य प्राप्त कॉन्ट्रैक्ट को स्वीकार नहीं कर पाएंगे। अन्य सभी प्राप्त कॉन्ट्रैक्ट (यदि कोई हो) स्वचालित रूप से अस्वीकृत कर दिए जाएंगे।

3. आपके द्वारा स्वीकृत एवं ई-साइन किये गए कॉन्ट्रैक्ट को अनुमोदित अधिकारी (Approving Authority) को भेजा जायेगा।

4. आपके द्वारा स्वीकृत एवं ई-साइन किया गया कॉन्ट्रैक्ट केवल तभी मान्य होगा जब अनुमोदित प्राधिकारी (Approving Authority) भी इस कॉन्ट्रैक्ट को स्वीकृत कर ई-साइन करें।

5. यदि किसी अवस्था में अनुमोदित प्राधिकारी (Approving Authority) आपके द्वारा स्वीकृत एवं ई-साइन किये गए कॉन्ट्रैक्ट को "Reject" कर देते हैं तो वह कॉन्ट्रैक्ट अमान्य माना जायेगा एवं सक्षिप्त किये कॉन्ट्रैक्ट के अनुरूप आप उक्त कोर्स की ट्रेनिंग में भाग नहीं ले पायेंगे।

☐ मैंने उपरोक्त नियम और शर्तों को ध्यानपूर्वक पढ़ा है। मैं इन सभी नियमों और शर्तों से सहमत हूँ *

4.12.2 View Different Status of submitted application – Use Case

4.12.3 View Different Status of submitted application – Business Logic

- Candidates can only accept any contract within 7 days from contract received date. After that the contract will get automatically rejected.
- If a candidate has already accepted and eSigned a contract then he/she shall not be able to accept any other contract. All other received contracts (if any) will get automatically rejected.

- If a candidate has accepted and eSigned a contract then he/she shall not be able to apply for any other vacancies on the marketplace.
- If a candidate has accepted and eSigned a contract then vacancy of that course (if > 0) will decrease by 1. For example, if a candidate has accepted and eSigned a contract against one OJT location and one course for which 10 vacancies have been published by the establishment, then on contract acceptance and eSign, vacancies count of that course will decrease by 1 all over the application (at establishment level and candidate level, who are searching for vacancies on marketplace).
- While generating a contract a Temporary ID of contract is being generated in format (TEMPSKY/DateMonth/Six digit random No.) i.e.,TEMPSKY2907000001. If a candidate has accepted and eSigned the same contract then permanent contract ID to be updated against the accepted contract in format (SKY290700001) **(just remove temp from temporary contract id.**

4.13.2 Approve/Reject Contract – Business Logic

- If departmental user rejected a contract, then, vacancy counter for that course will increase by 1.
- If departmental user rejected a contract, then, that candidate should be able to apply for other courses vacancies on marketplace.

4.14 Attendance Preparation / Payroll Freeze – Department Login

4.14.1 Use Case – SFR-oN1 – Monthly Attendance preparation & Payroll Freeze - (Establishment Login)

Name of Use Case:	SFR-oN1 Monthly attendance report preparation and payroll Freeze.
Description:	The establishment will create a monthly attendance report of all the joined student trainees for the particular month of the year. The establishment will be required to enter absent days or the number of Leave without pay (LWP) days of each student trainee for a previous month then the establishment contribution amount (25%) and government contribution amount (75%) will be auto-calculated based on the present days in a month (present days of a student trainee must be greater than 48% of total working days in a month). If no. of present days of student trainees is found to be less than 48% of the total working days then the establishment contribution amount & government contribution amount will become zero. The establishment needs to ensure that the correct payroll amount is displayed on the payroll page. The establishment then will be required to freeze the payroll & will then be required to pay a stipend corresponding to each student trainee in their MMSKY VAN (Virtual Bank Account Number) equivalent to the calculated establishment contribution amount (25%) for that month of that student trainee. The formula used to calculate the stipend for a month for a student trainee is $\{(Amount\ of\ a\ month / 25) * total\ no.\ of\ present\ days\ in\ a\ month\}$. The formula used to calculate the stipend for a month for a student trainee for the first month of joining & last month of leaving is $\{(Amount\ of\ a\ month / total\ working\ days\ of\ that\ month) * total\ no.\ of\ present\ days\}$.
Users:	Establishment & Establishment Sub Users.
Data Flow Condition:	- Establishment will select the year & month and then click on the search button. - If the Payroll status is "Pending with Establishment" then the establishment will click on the 3 dots '...' icon & then will click on 'Create/Update Payroll' Button. - Establishment will enter the number of LWP (Leave without Pay) days or number of absent days of each student trainee then contribution amount of establishment & government will be auto calculated based on the formula corresponding to each student trainee.

	- Then Establishment will click on Save Payroll Button, and then success information popup box will appear containing the text 'Student Trainee Payroll Details Saved Successfully'. - If the Establishment is required to edit/update the payroll, then the Establishment will update the no. of LWP days again corresponding to each student trainee and will update it and then if finds the corrected payroll amount generated corresponding to each student trainee then the Establishment will freeze the payroll. After freezing the payroll, the establishment will not be able to edit/update the payroll again for that student trainee. - After freezing the payroll establishment will be compulsorily required to pay online to student trainees in their MMSKY VAN Bank account via NEFT/RTGS/IMPS or UPI.	
Normal Flow / User Action:	Functional Requirement Id	Functional Requirement Description
	FR1	- Open the MMSKY portal. - Establishment will log in with valid credentials. - Click on the Attendance & Stipend menu.
	FR2	- Select the Year from the dropdown. - Select the Month from the dropdown. - Click on the Search Button. - A row containing the total no. of student trainees with payroll status 'Pending with establishment' will appear.\ - Click on the three dots '...' icon under the action column and then click on the create/update payroll button.
	FR3	- A screen will appear containing the list of joined student trainees for that month. - Enter no. of LWP (Leave without pay) days in an integer datatype corresponding to each student trainee in the grid textbox. - The stipend amount corresponding to each student trainee will be auto-calculated and will appear in the grid. - Click on the save payroll button to save the payroll.
	FR4	- If the establishment is required to update the payroll after saving the payroll then the establishment can re-enter the no. of LWP days corresponding to the student trainees. - The contribution amount will be auto-recalculated then. - Establishment will click on the 'Update Payroll' button to update the payroll.
	FR5	- After checking the payroll and ensuring that the correct amount corresponding to each student trainee is displayed on the portal, then the establishment should think of freezing the payroll. - To freeze the payroll, the establishment will click on the Freeze Payroll button.
	FR6	- A popup will come. - Mandatorily tick on consent, that the establishment will pay the required establishment contribution amount in the student trainee's MMSKY VAN Bank account. - Click on the Yes, Submit button in the popup box.

	- An information success popup will appear that student trainee payroll details freed successfully.
System Response:	- Attendance and payroll freed Successfully for a month for an establishment.
Post Conditions:	- After freezing the payroll on the MMSKY Portal, the Establishment will pay in each student trainee MMSKY Bank VAN account via online banking methodologies such as NEFT/RTGS/IMPS/UPI separately. The Online Payment facility is not provided on the MMSKY portal. The establishment has to pay through a separate online banking application available outside of the mmsky portal.

Student Trainee Payroll Details Updated Successfully.

Ok

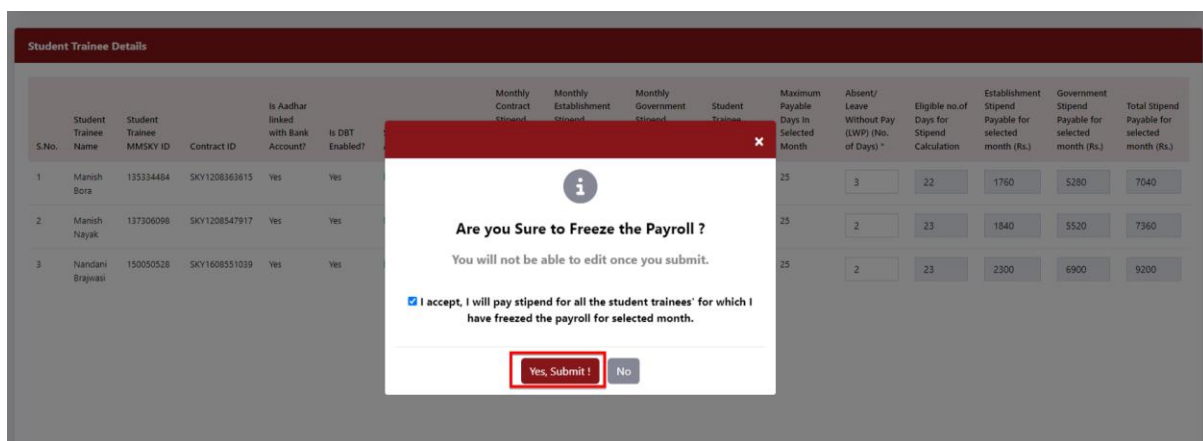

7. If the establishment is satisfied with the amount displayed on the screen, then the establishment must be required to freeze the payroll by clicking on the Freeze payroll button in the below screen. Important note here is that after freezing the payroll, the establishment will not be allowed to edit the payroll again and will be necessarily required to pay the calculated establishment amount equivalent to each student trainee in their MMSKY Bank VAN (Virtual Account Number) account displaying corresponding to each student trainee on the IFSC code CNRB0017723 of the Canara bank.

Update Payroll Freeze Payroll Back

8. A confirmation pop up box will appear as below asking the establishment to freeze the payroll & asking establishment to provide their consent by clicking on tickbox corresponding to 'I accept, I will pay stipend to all student trainees for which I have frozen the payroll for student trainees. After providing consent establishment will be required to pay the calculated establishment contribution into that month's all student trainee bank van account.

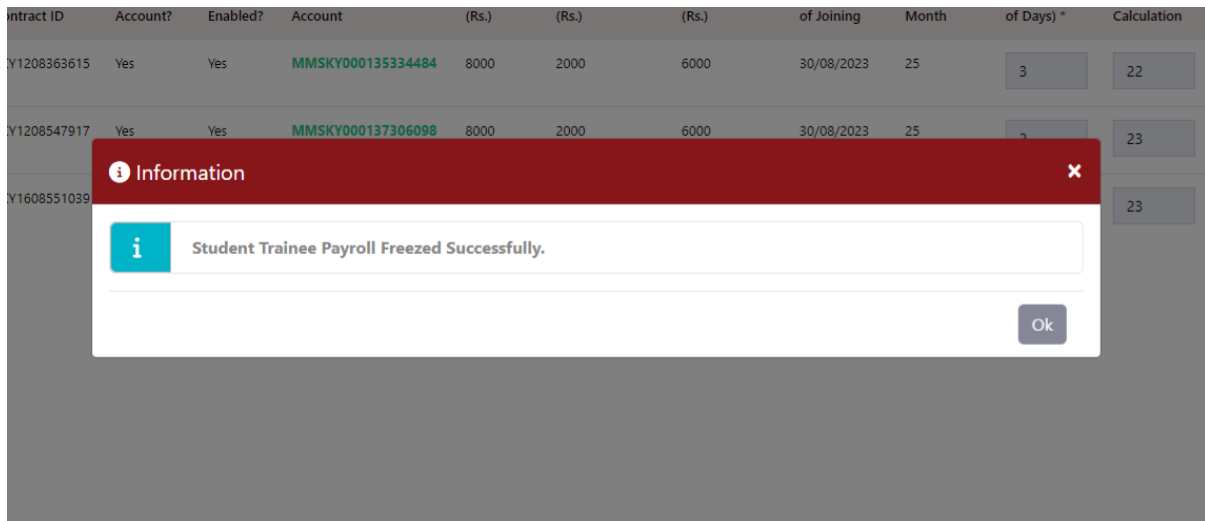

Are you Sure to Freeze the Payroll ?

You will not be able to edit once you submit.

☒ I accept, I will pay stipend for all the student trainees for which I have frozen the payroll for selected month.

Yes, Submit! No

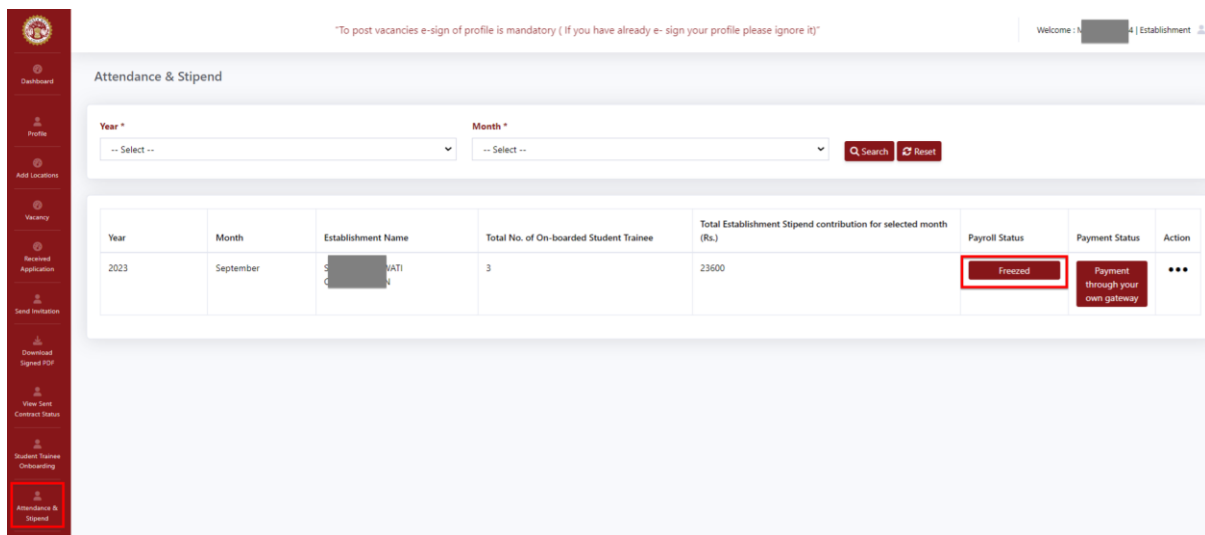

9. A success information popup will appear containing text “Student trainee Payroll Freezed successfully”.

The screenshot shows a table with columns: Contract ID, Account?, Enabled?, Account, (Rs.), (Rs.), (Rs.), of Joining, Month, of Days *, and Calculation. The table contains three rows of data. Overlaid on the table is a red 'Information' popup box with a white border. The popup contains an information icon, the text 'Student Trainee Payroll Freezed Successfully.', and an 'Ok' button.

Contract ID	Account?	Enabled?	Account	(Rs.)	(Rs.)	(Rs.)	of Joining	Month	of Days *	Calculation
Y1208363615	Yes	Yes	MMSKY000135334484	8000	2000	6000	30/08/2023	25	3	22
Y1208547917	Yes	Yes	MMSKY000137306098	8000	2000	6000	30/08/2023	25	3	23
Y1608551039										23

10. Establishment can check the payroll freeze status corresponding to each month by clicking on ‘Attendance & Stipend’ menu from left side menu bar.

The screenshot shows the 'Attendance & Stipend' page. At the top, there is a message: "To post vacancies e-sign of profile is mandatory (If you have already e- sign your profile please ignore it)". Below this, there are dropdown menus for 'Year *' and 'Month *', both set to '-- Select --'. To the right of these are 'Search' and 'Reset' buttons. Below the filters is a table with the following columns: Year, Month, Establishment Name, Total No. of On-boarded Student Trainee, Total Establishment Stipend contribution for selected month (Rs.), Payroll Status, Payment Status, and Action. The table contains one row of data for the year 2023 and month September. The 'Payroll Status' is 'Frozen' (highlighted with a red box) and the 'Payment Status' is 'Payment through your own gateway' (highlighted with a red box). The 'Action' column contains three dots.

Year	Month	Establishment Name	Total No. of On-boarded Student Trainee	Total Establishment Stipend contribution for selected month (Rs.)	Payroll Status	Payment Status	Action
2023	September	S...	3	23600	Frozen	Payment through your own gateway	...

11. Establishment after freezing the payroll will be compulsorily required to pay in each student trainee MMSKY VAN bank account via online banking (NEFT/RTGS/IMPS/UPI) corresponding to each student trainee equivalent to calculated establishment contribution for every student trainee for that month. Cash payment, credit card payment, debit card payment, and online payment to other bank accounts of student trainees in this scheme will not be considered. To check the Freezed amount establishment will click on “Attendance & Stipend” menu , click on 3 dots ‘...’ action menu & then will click on ‘Create/Update Payroll’ button.

Process Flow: Monthly Attendance report preparation and payroll Freeze - (Establishment Login)

4.15 Attendance Preparation / Payroll Freeze – Department Login

4.15.1 Use Case – SFR-oN1 – Prepare Sanction Order - (District Approving Authority Login)

Name of Use Case:	SFR-oN1 Prepare Sanction Order		
Description:	District Approving Authority will create a Sanction Order corresponding to all the establishments whose OJT (On-Job Training Location) district is falling under his/her district for the particular month of a year. The Sanction Order will contain the establishment stipend contribution paid to the student trainee in his/her Virtual Bank Account Number (VAN) and Government stipend contribution details. District Approving Authority (DAA) can include all of the student trainees in the Sanction Order or can also revoke some of the Student Trainees from the Sanction Order if will receive a complaint against them.		
Users:	District Approving Authority (DAA)/Assistant Approving Authority (AAA)		
Data Flow Condition:	- DAA/AAA will select the student trainees from an establishment for a particular month. - DAA/AAA will generate the Sanction Order.		
Normal Flow / User Action:	Functional Requirement Id	Functional Requirement Description	
	FR1	- Open the MMSKY portal. - Login with valid credentials. - Click on the Sanction Order menu & open Prepare Sanction Order.	
	FR2	- Select the Year from the dropdown. - Select the Month from the dropdown. - Click on the Search Button.	
	FR3	- A List of establishments who had paid to the student trainees in his/her Virtual Bank Account Number (VAN) will appear. - Click on the Number in the column 'No. of Student-Trainees whose DBT is enabled' - A ticked list of Student Trainees will appear.	
	FR4	- If required to revoke any student trainee from Government Contribution, untick any student trainee from the list and provide a "revoke reason/remark" corresponding to it. - Click on the Submit button.	

	FR5	- A popup will come. - Click on Yes, Submit ! button. - An information popup will come containing success text like "Student revoke status updated successfully". Click Ok.
	FR6	- Click on the Back button. - Click on the Generate Sanction Order button. - A confirmation popup will open. Tick on the consent i.e., 'Are you sure you want to generate the sanction order for selected establishments? Once generated you will not be able to edit. - And then Click on Yes, Generate button in the popup. - An information popup will come containing success text like "Sanction Order has been generated successfully". Click Ok.
System Response:	- Sanction Order Generated Successfully.	
Post Conditions:	- After generating the Sanction Order, DAA/AAA can either lock the sanction order or will be able to cancel the sanction order file.

4.16 Update Establishment Profile – Directorate Approver Login

4.16.1 Update Establishment Profile – Wireframe

The wireframe shows the 'Update Establishment Profile' page. It includes a sidebar with navigation links: Dashboard, Register OSC, Received Contracts, Accepted Contracts, Rejected Contracts, Go for Payment, Sanction Order User Manual, View Sanction Order, Trainee's DBT Status, Approve/Reject Sanction Order, and Update Establishment Profile. The main content area has a search bar with options to search by Establishment ID or GSTIN. Below the search bar is a table with columns: S.No., Establishment Name (Establishment ID), GSTIN, Name of Authorized Person of Establishment, Designation of Authorized Person of Establishment, Email ID of Authorized Person of Establishment, Mobile No. of Authorized Person of Establishment, Whatsapp No. of Authorized Person of Establishment, Details Last Updated, and Action.

This wireframe shows the same 'Update Establishment Profile' page with a data row added to the table. The table has columns: S.No., Establishment Name (Establishment ID), GSTIN, Name of Authorized Person of Establishment, Designation of Authorized Person of Establishment, Email ID of Authorized Person of Establishment, Mobile No. of Authorized Person of Establishment, Whatsapp No. of Authorized Person of Establishment, Details Last Updated, and Action. The first row contains the following data: 1, N-1234567890, 23, 4567890, 1234567890, 1234567890, 1234567890, 1234567890, 1234567890, and an 'EDIT' button.

4.17.2 Certificate & Assessment – Add Marks – Use Case

Introduction	The Establishment user can add assessment details of student trainee through this system	
Primary Actor	Establishment user	
Responsibilities	The Establishment user must add assessment marks of every eligible student trainee.	
Pre-Conditions	- The list of student trainees whose training end date falls in the current system day's month will be displayed. - The student trainee must have more than 70% yearly attendance.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	65.	The Establishment user has to log into the system with his valid credentials.

	66.	The Establishment user has to click on Certificate & Assessment menu.
	67.	The Establishment user has to select an OJT Location and click on the search button.
	68.	After that, the establishment user has to click on three '...' dots or ellipses action button and then click on the 'Add Marks' sub-menu.
	69.	The establishment then must enter Practical Marks & Sessional Marks for student trainee & then click on 'Add Marks' button. Establishment will be allowed to do four marks enteries corresponding to a student trainee till student trainee gets passed.
	70.	A confirmative popup box will open, click on Yes to display successful information message in a popup box.
Post-Conditions	- The Establishment user will see the added marks details along with pass / fail remarks. - The pass remark will be displayed when student trainee has obtained 60% or more than that in practical as well as sessional assessment. - Establishment user should be able to see the marksheet of every attempt entry corresponding to the student trainee.	

4.17.3 Certificate & Assessment – Add Marks – Business Logic

- Establishment will do 4 entries of sessional & theory marks of student trainee into the portal till student gets passed.
- Certificate will be generated after training end date.
- Assessment entry can be done from the last month of student trainee till the next 6 months after the training end date.
- Establishment will be required to add practical marks of student trainee out of 300 & also need to add sessional marks out of 100.
- Student trainee passing marks in sessional as well as in practical is 60%.
- Certificate format will be provided by the department.
- System will auto generate the certificate after entering sessional & theory passing marks.
- The generated certificate of student trainee would be visible to the student trainee, Establishment, State Approving Authority & District Approving Authority.
- Establishment can only add the marks of student trainee if his/her yearly attendance is greater or equal to 70%.
- Final certificate of a particular student trainee will be shown when student trainee will submit their feedback within 6 months after training end date.
- Establishment will be allowed to do 4 marks entries till 6 months from the training end date.
- Business Logic: Establishment will do entries till pass.
- Business Logic: Establishment will do another entry only when student trainee gets failed in previous marks entry.
- Certificate will be signed from service call of HSM (Hardware Security Module) - SCVT dept sign.
- After Training end or certificate generation, that particular student trainee attendance & payroll will get stopped & he will not come in payroll & will not be able to apply for vacancy.
- Updated data of samagra will come on certificate.
- Certificate will not be generated if student trainees fails in all 4 attempts.

4.19.2 Certificate & Assessment – Add Student Trainee Feedback – Use Case

Introduction	The Student trainee user can submit their training feedback through this system.	
Primary Actor	Student Trainee user	
Responsibilities	The student trainee user mandatorily needs to submit their training feedback.	
Pre-Conditions	- The student trainee either has completed his/her training or must be in his/her last month of attending the training and is allowed to fill out the feedback form. - The student trainee user can submit the feedback till 6 months after the training end date.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	77.	The student trainee user has to log into the system with his valid credentials.
	78.	The student trainee has to navigate to the 'Submit Feedback' menu & click on it.
	79.	A page will open where he has to fill the feedback form mandatory fields and click on the 'फीडबैक सबमिट करे' button.
	80.	A confirmation popup will open, click on the 'हाँ' button.
	81.	A success information popup box will open stating that feedback has been submitted successfully.
	82.	The student trainee after submitting the feedback, when returns to the same page can preview the submitted feedback, and will not be able to resubmit again because the system is allowing the student trainee to submit feedback only once.
Post-Conditions	The student trainee after submitting the feedback will become eligible to download the certificate if his/her certificate got generated.	

4.19.3 Certificate & Assessment – Add Student Trainee Feedback – Business Logic

- A student trainee is only permitted to submit feedback once.
- Student trainees can start submitting feedback from his/her last month of training.
- Establishment user has to fill all the mandatory fields on submit feedback page.

4.20.2 Certificate & Assessment – View Student Trainee Feedback – Use Case

Introduction	The Establishment user can view the feedback submitted by the student trainee through this system.	
Primary Actor	Establishment user	
Responsibilities	The Establishment user can view the feedback submitted by the student trainee.	
Pre-Conditions	- The Establishment user must log in to the system. - The Establishment user must see the student trainees having 70% or more yearly attendance. - The student trainee must be in their final month of training or beyond.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	83.	The Establishment user has to log into the system with his valid credentials.
	84.	The Establishment user must click on the Certificate & Assessment menu.
	85.	The establishment user must select the OJT location.
	86.	The establishment user will then see the list of student trainees.
	87.	The establishment user has to click on the ellipses or on 3 dots '...' & then should be able to click on 'View Student Trainee Feedback' sub menu.
	88.	The Establishment user should be able to see the feedback submitted by student trainee.
Post-Conditions	The Establishment user will be able to cross verify the submitted feedback of student trainee & hence can cross verify the certificate generation.	

4.20.3 Certificate & Assessment – View Student Trainee Feedback – Business Logic

- Establishment user must view the submitted feedback page with the data in disable mode.
- Establishment user must not be able to enter any data in Submit Feedback page.

4.21.2 Block – Raise Block Request for Establishment with Student Trainee – Use Case

Introduction	The District Approver Authority user can raise the block request for establishment along with the student trainee through this system.	
Primary Actor	District Approving Authority user	
Responsibilities	The District Authority must raise the block request for the establishment along with the student trainee If the establishment along with the student trainee is found to be in some wrongdoing activities.	
Pre-Conditions	- The District Approving authority must create a formal block letter for establishment along with student trainee. - The Establishment must be active & student trainees must be joined.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	89.	The District Approving Authority user must log into the system with his valid credentials.
	90.	The District Approving Authority must click on the Block Establishment / Student Trainee menu.

	91.	The District Approving Authority must tick on the radio button "Search Establishment by MMSKY Registration ID".
	92.	The District Approving Authority must enter the establishment ID & click on the Search button. The Establishment along with their joined student trainees list will come.
	93.	The District Approving Authority must tick the student trainees for which they want to raise the block request.
	94.	The District Approving Authority must select the block reason, enter the remark & upload the block request letter & then click on the 'Block' button.
	95.	A confirmation popup box will open. Click Yes on it.
	96.	A success information pop-up box will open indicating that a block request is successfully raised for establishment along with the student trainee.
Post-Conditions	- The Establishment & student trainee all activities on the portal will be blocked except attendance & payroll and update daily attendance. - The establishment will not be able to generate the contract. - Student trainees will not be able to apply for other vacancies.	

4.21.3 Block – Raise Block Request for Establishment with Student Trainee – Business Logic

- District Authority will raise block request of Establishment along with the Student trainees or can also raise a block request for individual student trainee. Block request will be forwarded to Directorate for Approval.
- Block request can only be raised for joined student trainees.
- After raising the block request, establishment will not be able to add vacancies, add OJT location, contract generation, onboarding of student trainees. District approving authority will not be able to prepare sanction order for that particular establishment.
- After raising the block request, establishment will only be able to update daily attendance (check in & check out) of all the student trainees from the date on which block request is raised.
- After raising the block request of any student trainee, he will be able to mark check in & check out through mobile app.
- Once Block request gets approved by directorate, then establishment will not be able to perform any operation on web portal & mobile application.
- Unmarked student trainees on block page will get terminated from that establishment but he will be able to apply for the vacancy of another establishment.
- Marked student trainees on block page will get terminated & blocked from MMSKY portal.
- If block request gets rejected by directorate, then establishment will be able to resume their all the operations and activities on the web portal & mobile application.

Instructions:

- Check-in and check-out timings will be disabled if the check-ins & check-outs of the attendance are coming from the mobile application.
- The status will be marked as Absent and disabled if the duration between check-in and check-out is less than 6 hours.
- When the time between check-in and check-out is equal to or greater than 6 hours, then the status dropdown will be available with the options "Present," "Weekly-off," and "Absent".
- When the Establishment has declared a holiday in the holiday master on a specific date, then the status dropdown will be available with the options "Holiday," "Present," and "Absent". Here By default, the Holiday option will appear as selected.
- The stipend will be deducted if the establishment marks any date as absent. LWP (Leave Without Pay or marked absent day) cannot be compensated for any extra working day, whether worked on a holiday or a weekly off.
- The Establishment can only mark a maximum of 5 Weekly offs for a student trainee in a month.
- The Establishment will be allowed to enter check-out time & select status options, if only check-in timings are available from the mobile application.

4.27.2 Online Attendance – view & update daily online attendance – Use Case

Introduction	The Establishment user must update the online attendance of every student trainee month wise for daily check in & check out timings through this system	
Primary Actor	Establishment user	
Responsibilities	The Establishment user must maintain the online monthly attendance calendar of each student trainee for every month payroll creation.	
Pre-Conditions	- The Establishment user must set the work timings for all OJT location. - The Establishment user must set the holidays master for all OJT location.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	127.	The Establishment user has to log into the system with his valid credentials.
	128.	The Establishment user has to click on the View Update Attendance menu. Select Year, Month & OJT & click on the Search button to view the list of student trainees.
	129.	The establishment user must click on the Student Trainee name to view their daily online attendance.
	130.	The establishment can adjust the daily timings (timings that have not arrived from the mobile) of student trainees for each day & can assign status present, absent, holiday & weekly off.
	131.	After adjusting the attendance of every student trainee month-wise, the user is required to save the attendance to keep it as a draft.
	132.	After ensuring, the establishment has correctly filled the daily attendance of each student trainee, the establishment will click on the Submit button to freeze the monthly attendance.
Post-Conditions	- The Establishment user has to perform save/update the daily attendance for every student trainee present at all OJT location month-wise. - Only after saving the daily attendance of each student trainee, the establishment will be allowed to freeze the payroll for that month.	

4.27.3 Online Attendance – view & update daily online attendance – Business Logic

- If Check-in and check-out timings are coming from mobile app then time should display as disabled.
- If difference between check in and check out is less than 6 hours, then it should be considered as Absent and status will be disabled.
- If difference between check in and check out is greater than or equals to 6 hours, then status dropdown should contain “Present, Weekly-off and Absent” in enable format.
- If on certain date, holiday is declared by establishment user in holiday master then on daily attendance page, status dropdown should contain “Holiday, Present and Absent” in enable format. Default option will be a Holiday.
- If establishment user has marked Absent for any date, then stipend should get deducted. If establishment user has marked Absent for any date, then stipend should get deducted. LWP cannot be compensated for any extra working day, whether worked on a holiday or a weekly off.
- Every marked week off should be considered as present day.
- Establishment can only mark 5 Weekly-off of a student trainee in a month.
- If only check-in timings are coming from mobile app, then check-out time entry should be allowed to establishment user and status selection options will be enabled.

1	2023	September	2040	2040
2	2023	October	2125	4180

Important Note: Dear Establishment, you can update the transaction status and forward it for Sanction Order, if Amount in VAN is equals to or greater than the freedzed amount for current month.

Instruction:

1. In MMSKY, Virtual Account Transaction Grievance is a formal complaint filed by an establishment regarding an MMSKY Virtual Account Number (VAN) amount transaction that is paid to a student trainee by the Establishment itself every month against the freedzed payroll.
2. To raise the Virtual Account Transaction Grievance on the "Create Ticket" page it is mandatory to select the Help Topic as "Payment" and Sub Help Topic as "VAN Account Issue".
3. The establishment must pay to each of their joined student trainees the corresponding monthly contribution amount, calculated online after freezing the monthly payroll, in a mandatory ascending sequence of months into the student Trainee MMSKY VAN bank account (which is available on the MMSKY portal & the establishment's monthly contribution amount transaction is mandatory need to be done through NEFT/IMPS/RTGS or UPI mode only).
4. To raise the Virtual Account Transaction Grievance, please [click here](#)

☒ * Are you sure you want to forward the student trainee's current month payroll for sanction order with the mentioned "System calculated VAN amount deposited (Month-Wise)" ?

4.28.2 Confirm Establishment Contribution – confirm monthly virtual transaction details along with ticket tool Integration – Use Case

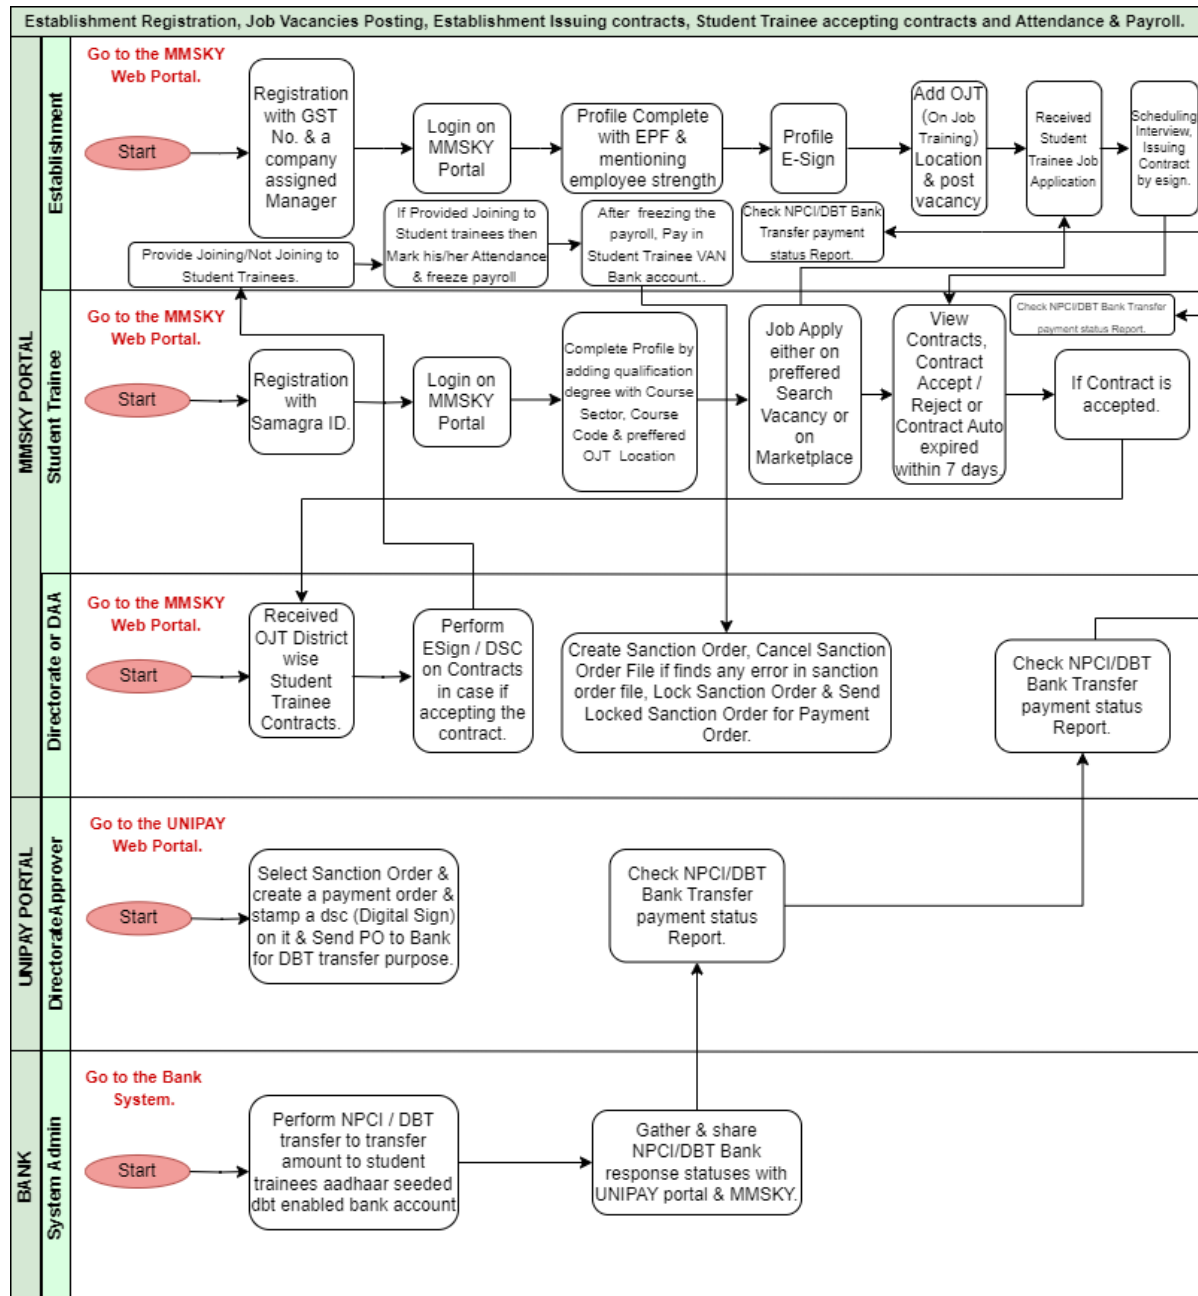

Introduction	The Establishment user can confirm each student trainee's monthly virtual transaction details through the system.	
Primary Actor	Establishment user	
Responsibilities	The Establishment user must confirm every month's virtual transaction corresponding to every student trainee for which he has paid the calculated monthly contribution in the student trainee/s virtual account.	
Pre-Conditions	- The Establishment must have updated the monthly attendance of each student trainee. - The establishment must have freezed the monthly payroll. - The establishment has paid the calculated student trainee's monthly stipend contribution in his/her virtual account.	
Normal Flow	Functional Requirement Id (FRID)	Functional Requirement Description
	133.	The Establishment user has to log into the system with his valid credentials.
	134.	The Establishment user has to click on the Attendance & Stipend Menu. Then the month-wise Freezed payroll list will appear. Click on 3 dots '...' or ellipses & then click on the 'View & Update Transaction details' sub menu.
	135.	A list of student trainees will appear, click on the 'Update Transaction Details' button.
	136.	A popup box will appear containing the monthly freezed amount of the student trainee & amount deposited in his/her virtual account by the establishment user. On the very same page, instructions will be displayed. If establishment user has any grievance with the virtual transactions, then he/she can raise the ticket by clicking on 'click here' link at point number 4 of the instruction under 'Payment' help topic & in 'VAN account issue' sub help topic.
	137.	If the establishment user has no issue with the monthly amounts displaying on the screen, then he can tick the

		consent stating that he really wants to forward the student trainees monthly payroll for sanction order creation with the amount deposited in student trainees virtual account.
	138.	The establishment user will then click on 'Update & Forward for Sanction Order' button. After that a successful information message popup will appear & on the attendance & stipend menu page, after clicking on view & update transaction details sub menu corresponding to a freezed payroll, 'Forwarded for sanction order' disabled green button will start appearing corresponding to that student trainee.
Post-Conditions	- The Establishment user will start seeing the 'Forwarded for Sanction Order' disabled green button corresponding to every student trainee for which he has confirmed the monthly virtual transaction details. - Establishment can trace the grievance ticket related with virtual account transaction if he/she has raised for any student trainee in ticketing tool under 'Payment' help topic & 'VAN account issue' sub help topic.	

4.28.3 Confirm Establishment Contribution – confirm monthly virtual transaction details along with ticket tool Integration – Business Logic

- Each & every student trainee monthly online daily attendance should get saved & freezed.
- Payroll should get freezed for a month for which establishment user wants to perform the update transaction details.
- Equivalent or more monthly calculated establishment's amount must get paid by establishment in student trainees virtual account.
- If the amount paid by establishment is less than that of calculated monthly establishment stipend contribution amount corresponding to a student trainee, then establishment will not be allowed to forward that month's contribution to further sanction order creation & in this case establishment will be forced to pay the remaining genuine amount in student trainees virtual account.
- Establishment who wants to raise the tickets corresponding to virtual account transactions, must raise the ticket in 'Payment' help topic & in 'VAN account issue' sub help topic.

5. Process Flow – High level MMSKY Integrated System containing all Modules

6. Non-Functional Requirement

Based on the requirements of services envisaged for automation of Department under current scope of project, following are non-functional requirements that are envisaged-

– System Wide Functionalities

- Web Application shall be modular in design and shall be designed using modular and reusable programming techniques for ease of maintenance.
- Web Application shall have the capability to format output to support HTML, XML, and text for data exchange/integration with various entities involved in the process.
- Web Application shall be designed to permit easy insertion of new modules and new enhancements.
- Web Application shall have the capability to complete all requests (e.g., store, retrieve, update, etc.) without any data loss.
- Web Application shall maintain an audit log in of each transaction.
- Web Application shall use open systems, standard-based architecture to meet functional requirements and to inter-operate with existing information systems.
- Data inputs to the Web Application shall be validated prior to being processed.
- Input data shall be validated for out-of-range values, missing or incomplete data and unauthorized or inconsistent control data.
- Integrity checks functionality on any data generated by the System shall be provided.
- Web Application shall prevent unauthorized users from accessing the system.
- Registered users in Portal and Web Application shall be allowed to log-on only to those functions which they are authorized to access and use.
- The logon process shall deny access if either the username or password is invalid without identifying the specific erroneous element.
- The logon process shall allow only a fixed number of logs on attempts before disabling the terminal.
- The password management System shall require the use of quality (i.e., difficult to guess) passwords.
- The password management System shall include non-display of the password when being entered.
- The password management System shall require the storage of passwords in encrypted form.
- Web Application shall provide flexibility to easily modify the System to handle changes in laws, regulations, and license & permit requirements.
- Web Application shall have the capability to search and analyse payment transactions for enforcement purposes.
- The Software solution shall be capable of generating event notifications and interfacing with E-mail System and must support e-mail triggers as part of the solution's workflow.
- The System shall have a reporting tool, which can be used to generate customized reports.

- The System shall support integration based on messaging/ Web Service and shall be able to integrate with other applications on different platforms.
- The System shall support integration based on standards such as XML/those laid down by Stakeholders
- The System shall be integrate-able with different middleware.
- A fail-safe mechanism should be available for the system.
- The System should not be totally dependent on external resources/FMS.
- The System should have a disaster recovery mechanism documented and available.
- The product/project/application should not be specific hardware dependent.
- Audit trail should be maintained, all deleted & edited records should be traceable and copy of all editions/ deletions should be available. The audit trail should be preserved insecurely and No user other than authorized should be allowed to modify audit record.
- The Software Solution shall maintain the life cycle of all the contents.
